

Last information update: November 2024

**Product configuration: QB23+QZ66.01**

QB23: Down LO plate - DALI - General Light - LED Warm - L 3588

QZ66.01: Initial module - Frame Down - General Light - L 3596 - TP(a) - White

**Product code**

QB23: Down LO plate - DALI - General Light - LED Warm - L 3588

**Technical description**

LED module set up for housing in intermediate system profiles, ideal for particularly long light lines. Down emission - Low Output version for General Light profiles (with opal diffuser screen). DALI dimmable control gear integrated in the luminaire. Extruded aluminium heat sink; high emission yield flux enhancer. Warm 3000K LED

**Installation**

Module insertion on profiles facilitated by a quick coupling system.

**Colour**

Indeterminate (00)

**Weight (Kg)**

3.8

**Wiring**

Quick coupling terminal block connection to simplify connections between the subsequent modules. Complete with integrated dimmable DALI control gear.

**Notes**

Important: the triple length intermediate luminous module can be used for both initial profiles - L 3594 - for stand-alone applications, and intermediate profiles - L 3594 - for continuous line applications.

Complies with EN60598-1 and pertinent regulations

**Product code**

QZ66.01: Initial module - Frame Down - General Light - L 3596 - TP(a) - White

**Technical description**

Initial profile in extruded aluminium - Frame version with contact frame; polycarbonate screen for diffused general light in compliance with the TP(a) standard; screen set up for connecting several lengths by overlapping.

**Installation**

Recessed using the brackets on the profile. The initial modules can be used individually (stand-alone), if completed with accessory caps and the required LED module L 3588.

**Colour**

White (01)

**Weight (Kg)**

7.4

**Mounting**

ceiling recessed|ceiling surface|ceiling pendant

**Wiring**

Set up exclusively to house L 3588 triple-length LED modules.

**Notes**

Take care with the system configuration. To make continuous lines of lighting, use the intermediate modules. To complete a continuous line correctly there must always be an initial module at the start or end of the composition.

Complies with EN60598-1 and pertinent regulations

**Technical data**
