Accessory code

MZ93: DALI Powerline driver box Low Voltage track with cables - 150W

DALI

Technical description

Box for 150W AC/DC driver that also functions as a ceiling rose for pendant track assembly. Made of extruded aluminium with thermoplastic end caps. Steel ceiling fixing plate. 2P electrical connection cable and steel pendant cable (L 2000 mm) included.

Installation

Ceiling fixing plate. Functions as a rose for a pendant track or can be surface-mounted at the end of the track.

Colour	Weight (Kg)	Dimension (mm) (*) 540x31x57.44
White (01) Black (04)	Ι	540X31X57.44
		* The dimensions may change according to production requirement
		to ensure that performance levels and installation methods are
Wiring Connection to line on terminal board v	vith screw connections. Low voltage	observed.
5	vith screw connections. Low voltage	e output connection on track power supply cap.
0	vith screw connections. Low voltage	e output connection on track power supply cap.
