Product configuration: EW25.15+X431.15

 $EW25.15: Pole-mounted system - ST1 optic - Neutral White - \emptyset 46-60-76mm - 35.3W 5720lm - 4000K - Grey X431.15: Adapter required for installation on pole - To be ordered together with optic assembly - from <math>\emptyset$ 42 to \emptyset 60mm - Grey Neutral Neutral

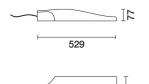

EW25.15: Pole-mounted system - ST1 optic - Neutral White - ø46-60-76mm - 35.3W 5720lm - 4000K - Grey

Technical description

Outdoor luminaire with direct light street optic, designed to use LED lamps. The optical assembly and the pole attachment system are made of EN1706AC 46100LF aluminium alloy and subjected to a multi-step, pre-treatment process, in which the main phases are: degreasing, fluorozirconation (a protective surface film) and sealing (with a nano-structured silane layer). The painting stage consists of a primer and a textured liquid acrylic paint, cured at 150 °C, with a high level of weather and UV ray resistance. Option of adjusting the inclination in relation to the road surface by +20°+5° (in 5° steps) for a pole-top installation and +5°/20° (in 5° steps) for a lateral installation. 5 mm thick extra-clear sodium-calcium closure glass fastened to the product with 4 screws. The high IP rating is guaranteed by the silicone gasket placed between the two elements. Complete with circuit featuring monochrome LEDs and polymer optic lenses. Product pre-wired with outlet cable. Driver with automatic internal temperature control system. The wiring and optical compartment can be opened with everyday tools or tool-free devices. The luminous flux emitted in the upper hemisphere of the system in the horizontal position is null (in conformity with the strictest standards for the prevention of light pollution). All external screws are made of stainless steel.

Installation

The spotlight can be installed with a pole-top or lateral mounting.

Colour	Weight (Kg)
Grey (15)	6.05

Wiring

268

Connection to be made with an IP68 connector, which can be purchased separately.

Notes

In the event of installations on insulated supports (like fibreglass poles) contact your iGuzzini dealer or customer care service to ask for a customised product fitted with an accessory for protecting the luminaire from eventual faults due to electrostatic charges.

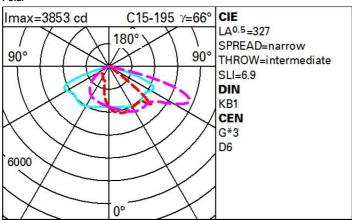

Accessory code

X431.15: Adapter required for installation on pole - To be ordered together with optic assembly - from Ø42 to Ø60mm - Grey

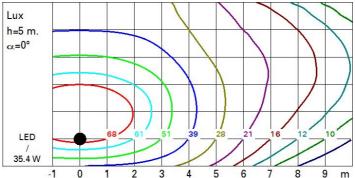

Colour	Weight (Kg)
Grey (15)	0.97
IP67	Complies with EN60598-1 and pertinent regulations
