
L-shaped wall / ceiling joint

Design iGuzzini

iGuzzini

Last information update: February 2023

Accessory code

MZ42: L-shaped wall / ceiling joint

Technical description

L-shaped joint for low voltage track in Minimal version (trimless flush with ceiling). This allows a directional change of 90° to be made between two consecutive tracks on different planes - ceiling / wall. A swivel joint allows fine adjustments to be made to remedy any discrepancies in the right angle. Electrical and mechanical connection.

Installation

Mechanical connection on track

Colour

White (01) | Black (04)

Weight (Kg)

0.01

Wiring

Consult the instruction sheet

Notes

The package includes protective labels for the unused holes on the track profiles.

Complies with EN60598-1 and pertinent regulations
