Accessory code X118_EN 1 / 1

X118: Frame for flush-mount installation on false ceilings in plasterboard

Technical description

Adapter frame for flush installation on plasterboard suspended ceilings, for Laser Blade InOut version with fifteen optical elements (L=423mm). Made of aluminium. Suitable for suspended ceilings H=12.5mm or 15mm.

Installation

Suitable for suspended ceilings H=12.5mm and 15mm. The frame is secured to the suspended ceiling with self-tapping screws; the suspended ceiling is then filled, skim-coated and painted before the luminaire body is inserted. For further information, please consult the instruction sheet.

Colour	Weight (Kg)
Indeterminate (00)	0.25

Complies with EN60598-1 and pertinent regulations
